

Beautiful Thoughts

The sweet, pure breath of the babe is suggestive of innocence and health.

A mother's yearning for children is inseparable from a love of the beautiful, and it behooves every woman to bring the sweetest and best influence to bear on the subject of her maternity.

To relieve pain and make easy that period when life is born again,

Mother's Friend

is popularly used. It is a liniment easily administered and for external use only.

Frequent women should try this remedy, it being undeniably a friend to her during nature's term of suspense and anticipation.

"Mother's Friend," if used throughout gestation, will soften the breasts, thereby preventing cracked and sore nipples. All muscles straining with the burden will relax, become supple and elastic from its continued application.

All fibres in the abdominal region will respond readily to the expanding cover containing the embryo if "Mother's Friend" is applied externally during pregnancy.

MANY FANS

ESTIMATED THAT 2500 ARE IN USE IN PADUCAH.

Doubtless few people know that about 2500 electric fans are in use in Paducah, but this is a fact, according to a man who knows. There are also many fans, doubtless, that the electric power company knows nothing about, as it cannot keep track of them, and a good many people feel no qualm of conscience over failing to report the use of a fan to the company. One dollar and fifty cents a month is charged for power. Many claim that running a fan is the same as using a light, and that as long as they pay for the light they are entitled to run a fan if they prefer, but this is not permitted. A fan uses much more electricity than a light.

"This has been the most backward season, however, that I ever saw," declared one man today. "It is a fact that a number of people who own fans haven't yet started to use them, on account of the mild weather. We expect a big rush later on, and it is possible a couple of hundred more fans will be put out."

AWFUL STENCH

COMES FROM THE HULL OF THE CHATTANOOGA NOW.

The horrible odor from bacon, cheese, beans, and other decaying contents of the hull of the Chattanooga, now here for repairs, permeates the entire river front. It is so bad that yesterday afternoon the colored laborers employed to wash the mud off the hull quit work. The stuff, much of it spoiled, is being unloaded as rapidly as possible and taken away, but the stench will probably cling to the boat for sometime yet, judging from its present strength.

Most of the cargo was saved, but there was a lot of it in the hull and the submerged part of the boat that could not be reached, and spoiled.

LEVELLING THE YARD

BOARD OF PUBLIC WORKS GIVES PRESIDENT BAGBY PERMISSION.

The board of public works has given President E. W. Bagby, of the Public Library Board, permission to use the chain gang to smooth down the library yard at Ninth and Broadway, and he will today arrange to have the work done. The board has for several weeks been trying to get the city to level down the loads of dirt used to fill up the yard, but to no purpose until now, when the president was given the use of the chain gang.

The catalogue is expected to arrive to begin work at the library about August 15th. The selections of the board for librarian and assistant have met with general favor.

SALE OF BONDS NOW SEEMS ASSURED

Why a Called Session of Fiscal Court is Necessary.

Chairman Barber, of Funding Committee, Already Has Propositions For Bonds.

RATES OF INTEREST LOWER

The special term of fiscal court called for Monday, June 27th, will take the place of the regular term of July 5th. The reason this special term is called to comply with the necessary formalities relative to floating county bonds.

The entire indebtedness of the county was bonded in 1893 for \$500,000, the bonds to draw 5 per cent. and run forty years. The county has the right to call in \$150,000 in ten years, \$150,000 in twenty years, and \$200,000 in thirty years. Last year the first option became available, and the county paid off \$50,000 of the first \$150,000 in cash, leaving \$100,000 to be refunded.

An effort was made to refund them last August, but the bids were not satisfactory, and the matter was left in abeyance until recently when it was referred to the funding committee, of which Justice R. J. Barber is chairman, and Justice Young, Burnett and Sheehan are members.

Justice Barber, who is a fine financier, has been quietly at work on the refunding matter, and now has an excellent proposition, which he desires to submit to fiscal court. The committee has power to act, but desires to have the whole board act on the proposition before the bonds are refunded, which they doubtless will be this time.

The reason a special meeting was called for the purpose is that the bonds specify that in case they are taken up, sixty days notice shall be given in writing to the bondholders on an interest paying day, and there are only two of these a year, one in March, and one in September.

It is desired to arrange for the refunding and give the sixty days notice before the interest is due in September, which necessitates a meeting before July 1st in order to leave the sixty days intervening before September 1st.

The bonds are now drawing 5 per cent. but they will be refunded at a lower rate of interest.

DOING WELL

MR. HERBERT WHITE, FORMERLY OF PADUCAH, BACK ON A VISIT.

Mr. Herbert White, formerly of this city but now of Hutchinson, Kan., is in the city visiting relatives.

Mr. White has been away from Paducah several years, but was surprised to note the growth of the city. He will return home in a few weeks.

Mr. White and his brother-in-law are in the dry goods business together and are doing well. They depend on the farmers for their chief patronage and say the farmers are all well supplied with money, the wheat crop last season being very large. This season the crop will be still larger.

GOING TO BENTON

LARGE CROWD WILL PROBABLY ATTEND ST. JOHN'S DAY.

It is probable that a large crowd of local Masons will go to Benton tomorrow, the 24, to participate in the St. John's day celebration, which is to be the most elaborate in years, and Masons from this entire section will be on hand. Deal's band, of Paducah, will go down to furnish music during the day.

LINEMAN KILLED

Horrible Death of an East Tennessee Electrician.

Stick of Explosive Touched off By Electric Battery He Held.

Information has been received here regarding the terrible death of an East Tennessee lineman up near Paris, Ky., day before yesterday. George Wilson, aged about 34, who is known by a number of local linemen but who never lived here, was foreman of the construction gang for the East Tennessee company was instantly killed by a premature explosion of dynamite while superintending work on the Ruddle Mill pike, five miles from Paris. His right hand was blown off at the wrist, both eyes were blown out, his face being terribly mangled, and a gaping wound was torn in his chest.

He had been carrying sticks of dynamite in his right hand and an electric string battery in his left, being engaged in blowing out holes for the erection of poles. It is supposed the battery in some way came in contact with the dynamite he was carrying, thus causing the explosion.

This is the third fatal explosion occurring within a short time among the construction employees of telephone companies there, the last two happening from similar causes.

ELKS' EXCURSION CINCINNATI JULY 16-17, 1904.

On account of the annual meeting of the Grand Lodge Benevolent and Protective Order of Elks, to be held at Cincinnati July 18 to 23, 1904, the Illinois Central R. R. Co. will sell round trip tickets from Paducah for \$10.45 going and returning same direct route. Tickets will be good returning until July 25, 1904, with privilege of extension until August 25, by depositing ticket with special agent.

On same dates tickets will be sold going via Louisville and returning via St. Louis for \$12.80, with stop over at St. Louis of ten days, but not to a later date than August 4, 1904, and upon depositing the ticket with validating agent in St. Louis and payment of \$1.

ACUTE RHEUMATISM.

Deep tearing or wrenching pains, occasioned by getting wet through; worse when at rest, or on first moving the limbs and in cold or damp weather, is cured quickly by Ballard's Snow Liniment. Oscar Oleson, Gibson City, Illinois, writes, February 16, 1903: "A year ago I was troubled with a pain in my back. It soon got so bad I could not bend over. One bottle of Ballard's Snow Liniment cured me." 25c, 50c \$1.

Sold by DuBois, Kolb & Co., Paducah, Ky.

CASES CONTINUED.

A charge of forgery against Dr. Elmer Davis, who was recently acquitted in the McCracken circuit court for forgery, was yesterday continued until the next term of court by Judge Bugg, at Mayfield.

WORLD'S FAIR RATES.

For the World's Fair Louisiana Purchase Exposition, to be held at St. Louis from April 30th, to Dec. 1st, inclusive, the Illinois Central Railroad Co. will sell excursion tickets from Paducah to St. Louis and return as follows:

Daily from April 25th to Nov. 15th, round trip \$8.50, good returning until Dec. 15th.

Daily from April 25th to Nov. 30th, round trip \$7.10, good returning for 60 days, in addition to date of sale but no later than Dec. 15th.

NEWS OF THE RIVERS.

The Chattanooga will probably abandon the Paducah-Chattanooga trade after being repaired. She will then go to the St. Louis trade until the world's fair trade is over.

Captain J. H. Allison, of Nashville, one of the owners of the Chattanooga, is in the city arranging for the company's share of the repairs to the boat.

Captain W. H. Edwards, who took the Gondola to Cairo, has returned. The steamer Chaparron was launched at Rumsey, Ky. The Chaparron is the old J. C. Kerr overhauled and in a few days she will have her machinery repaired. In three or four weeks she will enter the Bowling Green and Brownsville trade on upper Green river. As soon as the new lock on Green river is completed the Chaparron will be run through to Mammoth Cave, being the first boat to enter this trade regularly.

The steamer T. N. Barnsdall struck a snag near Waverly Monday morning and sank in about six feet of water. All the passengers and crew were got ashore safely. The loss on freight damaged by water and on the boat will be heavy.

Millions of bushels of coal sunk recently is being recovered, and much more will be saved when the river gets lower.

The missionary work of the Ohio Valley Improvement association will be renewed within the next ten days. Colonel John L. Vance, president of the association, will make a tour of the entire valley on a lecture trip and endeavor to awaken the enthusiasm of two years ago in the interest of the association. It is not known what date he will come to Paducah.

The Evansville Journal-News says: "Owners of two wharfbots at Paducah thrown out of commission by the employment of a large St. Louis wharfbot at that city, have been attempting to sell their property to Captain J. W. Ashby, of this city, but Captain Ashby says he has refused the offers. For the present, he says, he desires no more floating property than that he has."

IN A CLOSET

BLAZE STARTS IN THE BLUE RIBBON SALOON THIS MORNING.

Fire broke out in a closet at the Blue Ribbon saloon, Sellers and Robertson, about 1 o'clock this morning, and was discovered by Officer Will Orr before it had gained much headway. The closet is underneath the steps that lead to a cigar factory in the second story, and the origin of the blaze is unknown. The damage will amount to only a hundred or two dollars, covered by insurance.

AN OLD CUSTOM

IT IS TO SEND OUT SPECIMEN STAMPS.

Washington, June 23.—The report of Assistant Attorney General Charles H. Robb on the investigation of alleged irregularities in the bureau of Third Assistant Postmaster General Edwin C. Madden in connection with the printing and disposition of specimen postage stamps has been submitted to the president and has been made public. It finds nothing improper in Mr. Madden's conduct, and says the practice of the gratuitous distribution of a limited number of these books has obtained in the post-office department ever since postage stamps were first printed. The report recommends that the practice be discontinued as "theoretically wrong from an administrative point of view."
